## Banner Design Studio

### What's New In Banner Design Studio?

AdwCleaner is a powerful and easy to use adware removal tool. It scans your computer for adware applications and instantly removes all found adware infections including any trojans, downloader programs, toolbars, fake browser start pages and other adware applications. AdwCleaner will quickly detect and remove all forms of adware, making your Internet experience clean, fast and easy. It provides real-time protection, daily back-ups, removal of history files, clean reports and an easy to use interface. Publisher: Bully Software Developer: Bully Software You can also save the generated banner as a template and use it in your future projects, apply several filters (e.g. grayscale, invert, sharpen, edge), undo or redo your actions, flip the banner vertically or horizontally, zoom in or out, perform basic editing operations (cut, copy), as well as show or hide the ruler and grid. A wide range of customization tools Banner Design Studio comes packed with several dedicated parameters developed to help you embed text messages, that can be tweaked in terms of font, size, transparency, and rotation, photos (that can be resized, cropped, and rotated to different angles), shapes, buttons, as well as multiple banners.
